

3-POINT BEND TEST FIXTURE

to test metallic materials according to VDA238-100: (2020).

For version 2010, please request an offer for *TH103-FV-VDA238-100 (2010)*.

Item no.:	TH22St-240-FV-D30-M20-svo-Af318 (2020)
Max. load:	50 kN
Coupling:	Af318 Further couplings on request
Material:	Steel, nickel-plated Upper anvil and lower rollers hardened
Temperature range:	0 ... +70°C Further temperature ranges on request
Weight:	22.4 kg per fixture
Scope of delivery:	1 fixture including: 1 lower bar 240 mm long 1 upper anvil carrier with 1 insert with radius 0.2 mm 1 insert with radius 0.4 mm
